As of January 1, 2022, everyone in the State of California is required to sort and properly dispose of their waste, per SB 1383. SB 1383 aims to reduce greenhouse gas emissions by keeping recyclables and compostables out of the landfill. SB 1383 also requires service collection containers to be uniform in colors across the State: blue for recyclables, green for compostables, and gray or black for materials that can’t be recycled or composted. All service collection containers must be labeled as well.

The following items are not allowed in the trash:

- **Recyclables**: Bottles & Cans, Jars & Jugs, Paper & Cardboard
- **Compostables**: Food & Plants, Paper & Cardboard used for food or drink & Shredded Paper

**Agency Information**

Oro Loma Sanitary District (OLSD) is a public agency that provides wastewater services to approximately 46,000 households and 1,000 businesses. OLSD also oversees the solid waste collection services provided by Waste Management of Alameda County (a private company). To learn more about OLSD, visit: www.OroLoma.org.

Waste Management of Alameda County, Inc. (also known as WM or WMAC) collects solid waste-trash, recycling, and organics - as the designated waste hauler for OLSD and many other jurisdictions in Alameda County.
